

# 2021 DATA OVERVIEW

15,000+

children served through IMPACT services

30%

increase in children served from 2020

## Consultation

58

unique sites served

186

unique providers served

624

total consultations completed

9.3

Director  
satisfaction rating

8.4

Teacher  
satisfaction rating

Consultation methods most  
helpful for reaching goals

Brainstorming strategies  
together

Expressing challenges  
while being validated

## Professional Development Trainings

"The presenters are clearly skilled and passionate about working with challenging behaviors and helping others to learn effective strategies. They kept such a pleasant pace on an enormous topic. Their graphics, references, video clips were highly effective too."

2,711

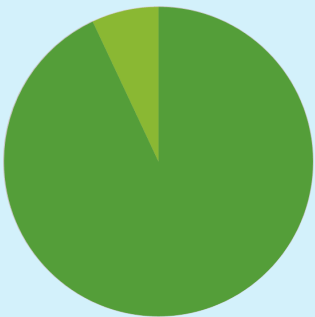

providers trained

90

group trainings delivered

93%

of the directors are more likely  
to keep a child with  
challenging behaviors enrolled  
as a result of receiving IMPACT  
services

90%

of the directors are more likely to  
enroll a child with special  
healthcare needs/ disabilities as  
a result of receiving IMPACT  
services

Based on a review of IMPACT's service delivery model, provider outcomes, surveys, and SMART goals in 2021, we were able to identify that consistent admin consultation is the greatest predictor of programmatic success. Programs that have administrators who participate in consistent consultation experience the greatest amount of growth, including more providers reaching their goals, and improved outcomes.
